HIGHLIGHTS OF THE TRIP

Cozumel reefs are a Natural Protected Area. The island is a world known spot for Scuba Divers. The crystal-clear waters of the ocean, all the incredible dive sites and colorful marine life surrounding it makes it one of the best places in the world for divers.

We'll be taking a private small boat and divemaster-guide for our group of certified divers with a reliable, local, knowledgeable dive operation. We get to pick our preferred dive sites and enjoy the magic of diving at night. We'll be diving Nitrox during day dives so we can extend our bottom time.

The beautiful boutique hotel where we are staying is only 2 miles from downtown which makes it ideal if we want to explore the island! We will have rental bicycles available if we want to tour around and we will also enjoy the beautiful sunsets from our ocean view room.
